## U5D1 A: TRENDS IN GRAPHS

Do lower health-care costs mean higher wages?

Does the graph provide evidence that lower health-care costs result in rising income?

## **B: Describing Trends**

1. Describe the trends in the world population from 1750 until now.
2. What geographic region had an increasing trend followed by a decreasing trend?
3. What geographic region had a period of constant population followed by a growth period?
4. The years beyond the year 2000 are predictions. How accurate do you think these are?

C: DESCRIBING RELATIONSHIPS IN GRAPHS
