Optics 34

### **Things to do to prepare for the exam:**

- Complete the Exam Review Package
- Review your Unit Tests and quizzes
- Review your Notes
- See your teacher for extra help if needed

### **Extra Help**

Any day during lunch or after school until 3:30PM

## INFORMATION PROVIDED ON THE EXAM:

Periodic table with Polyatomic Ions

Formulas - you need to **memorize** the following formulas:

$$m = \frac{h_i}{h_o} = -\frac{d_i}{d_o} \quad \frac{1}{f} = \frac{1}{d_i} + \frac{1}{d_o} \quad n = \frac{c}{v}$$

### ***INSTRUCTIONS:***

1. Read all questions carefully.
2. Record all multiple choice answers on the Scantron sheet provided.
3. Answer all written questions in the space provided, showing complete solutions to all problems.  
Be sure to show your work and include all units.
