

6A Superstar News

Where STARS shine bright!

Oct 12-16, 2020

This week in 6A Students:

- *Superstars finished their block letter name and line Art. They looked awesome!
- *We've been working hard creating patterns. Students have been identifying attributes of patterns, using letters to represent the core and predicting future items.
- *Students finished completing a rounding numbers check-in.
- *Superstars practiced building number lines using scale.
- *We continued to work on our recount writing.
- *As a class we edited writing samples.
- *Students identified the main idea of the stories "The Golden Rule" and "Same, Same, But Different".
- *In Science we finished discussing plant products. We also learned about photosynthesis.
- *Students brainstormed examples of nouns and verbs for our word work.
- *Superstars created a gratitude jar mind map, where they filled the jar with items they are grateful for.

Next week we will:

- *Move into growing patterns
- *Continue with our recount writing and point of view
- *Begin talking about plant survival tactics

Important Notes and Reminders:

- *Students are now able to leave indoor shoes at school above their hook.
- *Superstars are to check Google Classroom for items they missed in class while they are away.

Supporting Your Child at Home:

- *Look for real life examples of patterns
- *Identify attributes of patterns
- *Discuss survival tactics of plants
