

## **Plant Kingdom** - Pgs 374-399

Complete the following work to create your note for this topic.

1. Record the general characteristics and examples of Plants from table 2 pg 329.
2. Record the general characteristics of Plants from Table 1 pg 364.
3. Record the Plant classification system diagram from Figure 2 pg 374. Add to this flow-chart an example of a plant that belongs to each division (*you may need to use pgs 386-401*).
4. Read pgs 374-377 and explain how plants "led the way" for all organisms to start living on dry land.
5. Read the summary on pg 378 and record the 6 modifications that allowed plants to colonize on land.
